

WORLD POLYMER CONGRESS
38th Macromolecular IUPAC Symposium
Warsaw/Łódź, Poland July 9-14, 2000

■ **Planned Sections**

- New Macromolecular Syntheses(General)
- Controlled Radical and Ionic Polymerizations
- Coordinated Polymerizations(olefins & related)
- Polymerization in Dispersed Media and Properties of Polymer Coloids
- Polyaddition and Polycondensation Reactions in Polymer Melts
- New Instrumental Methods in Macromolecular & Polymer Characterization
- Hyperbranched, Starlike and Dendrimeric Macromolecules
- Biomacromolecules, their Assemblies and Biopolymer Systems
- Supramolecular Structures and Self-assemblies
- Nanostructures
- Polymer Networks
- Macromolecules in Solution
- Polymer Morphology
- Macromolecular Dynamics
- Polymer Fibres Forming Phenomena
- Polymer Blends
- Modelling of Macromolecular Systems
- Polymers in Medicine
- Polymers in Electronics(Conducting Polymers)
- Polymer Surfactants
- Suspension Stabilization and Water Treatment
- Polymer Industry and Industrial Polymers
- Polymers Friendly for Environment

■ **Address for Correspondence**

Prof. Zbigniew Florjańczyk
Chairman of the Organizing Committee
Warsaw University of Technology, Faculty of Chemistry
Noakowskiego 3, 00-664 Warsaw, Poland
