

Prof. Chen-Chi M. Ma

## Congratulatory Message

On behalf of the Polymer Society Taipei (PST), I would like to express my warmest congratulations on the 40<sup>th</sup> anniversary of the Polymer Society of Korea (PSK). Over the years, the Polymer Society of Korea has built an international reputation as one of the leading polymer societies in the world. We really appreciate all the friendship and support you gave us. In the past, there have been many successful joint symposiums, especially for young polymer scientists.

We sincerely hope that we could continue our relationship in the future. As part of the global polymer community, I congratulate your society on the great success and wish you all the best of your society and all members.

**Chen-Chi M. Ma**

President
