

ARTICLES

- Temperature-dependent rheological behaviour of methylcellulose nanocomposite organogels
Ratan Pal Singh* 1
- Formulation and characterization of chitosan nanoparticles loaded with neuroprotective flavonoid
from *Phyllanthus niruri* Linn
Gayathri Rajamanickam* · S. L. Manju 13
- Thienoquinolinone-based acceptor- π -acceptor-type building block for polymer donors in organic solar cells
Jong-Woon Ha · Jae Gyeong Jung · Du Hyeon Ryu · Suha Lee · Chang Eun Song · Bogyu Lim · Yu Jin Jung ·
Jong Mok Park · Do-Hoon Hwang* 25
- Dielectric spectroscopy investigation of relaxation processes in the low-frequency regime and validity
of the Stokes-Einstein-Nernst/Stokes-Einstein-Debye relation in poly(propylene glycol)
Lokendra P. Singh* · Gagan Sharma 33
- Experimental and computational investigations on ring-opening polymerization mechanisms
of amide-functional benzoxazines
Wenqian Zhao · Richie Yang · Shengfu Yang* · Kan Zhang* 45
- Low energy irradiation induced effects on the surface characteristics of polydimethylsiloxane polymeric films
B. M. Alotaibi · A. Atta* · M. R. Atta · E. Abdeltwab* · M. M. Abdel-Hamid 53
- Omniphobic, ice-repellent, anti-bacterial, slippery liquid-infused porous surface (SLIPS) using sprayable chitin
nanofiber coating
Hee-Young Kwon · Jungho Jin* 65
- Ground type-I collagen-a focused study on its fibrillogenesis behavior and bioactivity in vitro
Yuling Xu · Lei Dai · Ke Li · Jialin Liu · Haibo Wang* · Lang He* · Chengzhi Xu · Benmei Wei · Juntao Zhang 75
